EXCLUSIVE
INTERVIEW

“
We are always
trying to get hair
that we don't
have—learn to
love your hair
and embrace it
the way it is.
”

Recognize Her?

This Disney Star
Turned *Dancing With
The Stars* Dancer,
Turned Stylish
Singer—Is Shaking
Up The Style Scene
One High-Note
At A Time!

Zendaya

Rock Star. Dancer. Fashionista.
How Does She Do It?

When you're on target to become the next "it girl" of Hollywood and MTV is calling you one of the "Fresh Faces of Pop," you know you're on the brink of greatness. Enter Zendaya. This stylish teen has exploded onto the scene, first with her rhythmic moves on *Dancing With The Stars*, then with the release of her debut album *Zendaya*. And boy, has she looked good doing it!

“It's exciting to be myself, be creative and find my style.”

Tell us about your hair...

My haircolor is brown—almost grey. I have a lot of ash in my hair that makes it almost ash-brown. It's not super curly, but right in the middle.

How do you like to style your hair?

If I'm going out with my friends it's usually in a topknot, out and down or in a ponytail. When it comes to performing I might put extensions in, sleek it back into a regular ponytail or just rock my natural texture. I try to do a lot of styles that don't require me to put any heat on my hair.

Tell us about your styling routine.

I usually take my showers at night and put conditioner in my hair, then I spin the lengths up into a little knot on the top of my head. Once I let it out after sleeping on it, the curls are nice. I use Garnier Fructis Sleek & Shine Leave-In Conditioner Cream and it smells so good.

Do you style your own hair?

I have a hairstylist, but there are times when I actually like to do my hair myself. Everyone knows how they like to wear their own hair and you get used to figuring it out and playing around with it.

What's your go-to hair tip?

We are always trying to get hair

Zendaya owns the red carpet with this voluminous bob look. The singer's ebony-hued strands work with subtle texture to create a face-framing silhouette perfect for the young starlet!

that we don't have—learn to love your hair and embrace it the way it is. If you have super curly hair, rock it super curly; if you have really straight hair, rock it super natural and straight. Enjoy what you have because once you start to change it, that's when you ruin your hair.

During her time on ABC's *Dancing With The Stars*, Zendaya dazzled the judges not only with her moves, but also with her coif! Here the star sports a coiled mane perfect for showing off majestic movement!

Tell us about your music...

My first album came out and it's exciting to be myself, be creative and find my style. I'm very excited for people to hear that and really vibe with it. It's a rhythmic pop sound, so it's not just regular pop music. My sound is influenced more with R&B and Hip-Hop tones.

Why do you love performing your own music?

The connection—every song has a story and every song has honesty. I love every single song that I've recorded, so when I'm up there I'm truly enjoying myself.

How do you like to wear your makeup?

Sometimes I like to do something super natural and light or, if it's a red carpet I'll go full out with eyelashes and everything. If it's really chill then there's not a lot of eye makeup and it's more focused on the skin. I think it's really pretty when your skin is gorgeous and then there's a pop of a cool lip color. Everyone has that one red lip color that looks good on them. Once you find that red it's going to be your signature color.

Super sleek. Super chic. Zendaya takes smooth to a whole new level.

My Faves

► "I use Garnier Fructis Sleek & Shine Leave-In Conditioner Cream and it smells so good. I've used that forever; it's one of the few things that makes my curls come back."

► "Everyone has that one red lip color that looks good on them."
