

# BEA MILLER TO PERFORM ON THE *TODAY SHOW* MAY 12

## U.S. DATES WITH FIFTH HARMONY KICK OFF JULY 15

TICKETS ON SALE FRIDAY MAY 1

## DEBUT ALBUM [NOT AN APOLOGY](#) OUT JULY 24

**April 30 2015** (Burbank, Calif.) – Powerhouse vocalist **Bea Miller**, whom [Rolling Stone](#) named as one of their “10 Artists You Need To Know,” will join **Fifth Harmony** this summer on their *Reflection: The Summer Tour*, the follow up to the band’s critically-acclaimed sold-out *Reflection Tour*. U.S. dates kick off July 15 in Louisville, KY, and will make stops in cities including Atlanta, Nashville, Dallas, Phoenix, Denver and DC. Tickets go on sale this Friday, May 1 [HERE](#).

In anticipation of her debut album *Not An Apology*, due out July 24, Bea will make her second appearance on the *Today Show* performing her defiant new single “[Fire N Gold](#)” on May 12. The track, which has already sold over 100,000 digital copies is the follow up to her Top 40 hit “[Young Blood](#).”

*Not An Apology*, follows Bea’s *Young Blood* EP (debuted #2 on the iTunes pop chart) which earned her recognition as one of [Billboard’s “10 Artists to Watch in 2015.”](#) MTV, who said of Miller, “her powerhouse, wise-as-what vocals – the Nirvana-inspired songstress aims to keep rock music alive...” selected her as an [MTV Artist to Watch for 2015](#), along with FKA Twigs, Hoodie Allen, Shawn Mendes, and Ty Dolla \$ign among others.

*Not An Apology* features several tracks co-written by Bea (including her debut single “Young Blood,” a darkly charged anthem that hit the *Billboard* Hot 100 soon after its April 2014 release), and mines her everyday experience for unapologetically honest lyrics about everything from bullying and backstabbers to isolation and breakup angst.

To capture the tension between toughness and vulnerability that propels much of *Not An Apology*, Bea teamed up with producers like busbee (P!nk, Kelly Clarkson), Jarrad Rogers (Icona Pop, Demi Lovato), Mike Del Rio (Kylie Minogue,

Selena Gomez), and Matt Squire (Ariana Grande, Ke\$ha) to craft a melody-fueled mix of gritty guitar riffs, fuzzed-out grooves, and awesomely heady beats.

**Not An Apology** is available for pre-order at iTunes <http://smarturl.it/bma1>
