19 of This Year's Biggest Albums (and When You Can Get Your Hands on Them)

Kicker by Zella Day

We can't deny our obsession with Lana Del Rey, but Zella is often described as a "happier Lana Del Rey." If you're not in the mood to wallow, give her a download.

Expected Release: June 2, 2015

You know those albums where you start off listening to just a few tracks and within days you're belting out the lyrics to every single one of them? We've been there, and it's so fun to immerse yourself in a record like that. In the interest of replicating that experience, we've rounded up a list of the ones that are sure to be added to your obsessed-over playlist.

With genres ranging from pop to alternative and everything in between, here are the biggest albums coming out this year and exactly when you can get your hands on them. On your mark, get set, listen in.
