# Sabrina Carpenter

Sabrina Carpenter is no stranger to the industry, in 2015 not yet sixteen she released her debut album *Eyes Wide Open*. Dedicated to her experience during her younger years playing the reckless and wild Maya Hart in the hit Disney series *Girl Meets World*.

*Eyes Wide Open*, successfully established Sabrina within the industry but it has been her latest album 'EVOLution' and single 'Thumbs' that has propelled her straight into the spotlight, showcasing Sabrina's talent as superior beyond her years. Sabrina's 2017 US tour took her career to new heights, following it's success she gained international recognition supporting The Vamps across the UK and Ireland. We catch up with the the singer to hear about her take on the high's and low's of the industry, the transition from TV to music and why she has captured the attention of fans across the world. We can't wait to see what is yet to come!

**You originally began your career playing Maya Hart, on the hit Disney channel series 'Eyes Wide Open', how did you transition into your career as a singer?** It was easy because I was actually a singer before I was an actress, I signed with my label at the age of 12 then proceeded to start working on the show around 13. I'm lucky to be able to do both things I love

**Your so young to be working in such a tough industry, how do you keep motivated?** Very true, I see why people have breakdowns when they start so young. It's like everybody's feelings and opinions are coming at you from every angle you almost just have to take a deep breath and listen to yourself. If you're still having fun and happy at the end of the day, then it's worth it.

**Who and what inspires you?** Other artists and their art inspire me. I have too many it would look like santas naughty and nice list.

**How do you combat stage nerves?** The more I perform the less nervous I get, that's why I love touring. I grow as a person and performer. Deep breaths, stretching and incense !!

**What has been the best moment in your career so far?**

My favorite moment hasn't happened yet Im looking forward to what's coming.

**Where do you see your  
career developing in ten years time?**

Hopefully they haven't learned how to make a clone of me by then  
.. in ten years..

I hope to be doing what I'm doing now but with a lot more knowledge under my belt.

Growing up did you always want to enter the acting/music industry?

Yes.

I didn't know what it entailed at such a young age but I always knew I would end up on a stage somewhere
